

Seona Ann Tom

Computer Science Undergraduate | Backend & Integration

Computer Science undergraduate with experience developing backend applications and REST APIs using Node.js, Express.js, PostgreSQL, and Prisma. Strong foundation in SQL, programming, DBMS, and software engineering, with hands-on experience in API integration, data validation, debugging, and backend system development.

PROJECTS

FLUX – Smart Energy Usage Tracker

- Built an IoT-based energy monitoring system using ESP32 and Firebase for real-time energy tracking
- Developed a responsive JavaScript/CSS dashboard for usage visualization.
- Implemented energy usage analytics with abnormal-consumption alerts and bill estimation.

Machine Learning Projects (Computer Vision & NLP)

- Developed CNN and LSTM models using TensorFlow and Keras for image classification and sentiment analysis.
- Applied preprocessing, model tuning, and evaluation techniques to achieve 85–90% accuracy.

PROFESSIONAL EXPERIENCE

Software Development Intern – Repatria

March 2026 - Present

- Developed the backend for a conversational AI assistant using Node.js, Express.js, PostgreSQL, Prisma ORM and Gemini 2.5 Flash.
- Integrated the Gemini and Google Maps APIs, with input validation, entity extraction and structured error recovery for state-driven, multi-step workflows.
- Built and tested REST APIs for integration with a Flutter application, supporting multi-step service request workflows.
- Debugged and resolved issues in conversation-state persistence and input validation across the API and database layers.
- Implemented structured fallback handling to improve robustness across diverse user inputs.

AI & Data Analytics Intern

June 2025 - July 2025

- Completed a 4-week internship focused on AI and data analytics for sustainable solutions by AICTE, Shell India & Edunet Foundation
- Worked on data analysis tasks and basic model development.

ACHIEVEMENTS

SAP Hackfest - National Finalist

- Advanced to Nationals from 5,000+ teams / 25,000+ participants, building CleanScope, a sustainability-focused civic tech solution

GHCI Scholar (Grace Hopper Celebration India 2025)

- Selected to attend GHCI'25, engaging with industry leaders and the tech community.

UST SIGHT 3.0 Hackathon - Round 1 Selection

- Selected among Top 100 projects in a national-level innovation challenge on sustainable solutions

LEADERSHIP & ROLES

Learning Coordinator - TinkerHub VJCET

June 2025 - Present

- Organized and facilitated 15+ technical workshops and state-level hackathons, impacting 600+ students and driving campus-wide tech engagement.
- Led Women in Tech initiatives, hosting a 100+ participant pre-hackathon meetup and hackathon, improving onboarding and participation in tech communities.

EDUCATION

B.Tech in Computer Science & Engineering

Viswajyothi College of Engineering and Technology (KTU)

Sep 2023 – 2027

CGPA: 9.02

Class XII

Jai Rani Public School, Thodupuzha
2023 | Percentage: 88.5%

Class X

Jai Rani Public School, Kaliyar
2021 | Percentage: 96.6%

SKILLS

- Languages:** Java, Python, JavaScript, C
- Backend:** SQL, Node.js, Express.js, JSON, HTTP, Prisma
- Database:** PostgreSQL, DBMS
- Tools & Technologies:** REST APIs, AWS ECS, Postman, Firebase, Git, Figma
- Concepts:** DSA, OOP, Operating Systems, Computer Networks, Software Engineering
- Frontend:** Flutter, HTML, CSS, Tailwind CSS, JavaScript
- Frameworks & Libraries:** Spring Boot, TensorFlow, Keras
